

TOOL 1.6: Supervision Responsibilities by Domain

Consider what the goals and activities you have defined for your Patient Navigator(s) suggest about where the Patient Navigator(s) fit into your organization's structure. Refer back to tool 1.5 for the types of activities that your navigator will be performing, which may or may not require oversight. Then, use this tool to figure out what your supervision needs are within the four domains.

Domain	Supervision Needs	Other Considerations
Administrative		
Clinical		
Community		
Resource
